Sunbrella® Fabric Selection For Custom Replacement Cushions

Hanamint®

BERLIN GARDENS

POLYWOOD®

NorthCape

DISCLAIMER

Cascadia Outdoor Cushions is an independent manufacturer of custom replacement cushions and is not affiliated with, endorsed by, or sponsored by any of the above manufacturers.

The cushions offered are third-party products made to be compatible with original manufacturer of the cushions. While designed to closely match the style and fit of the original equipment, specifications may not be identical to OEM products. All references to each manufacturer are for compatibility and identification purposes only.

By Fabric Group**Fabric Grades (A=\$) (B=\$\$) (C=\$\$\$) (D=\$\$\$\$) (E=\$\$\$\$\$)****ABOUT THIS SUNBRELLA® FABRIC SELECTION**

The Sunbrella® fabrics offered for our replacement cushions are selected from the current stock Sunbrella® fabric collection, with approximately 250 fabric options available. These fabrics are up-to-date and widely stocked, giving you a broad range of colors, textures, and patterns to choose from.

If you are looking for a specific Sunbrella fabric not listed in our collection, please let us know. We can provide a custom quote for any Sunbrella fabric. Please note that fabric availability and mill production schedules are beyond our control and may occasionally result in delays to the shipment of your order.

We can not promise completion dates on custom cushion orders.
All lead times are approximate.

WHY IS ONE FABRIC MORE EXPENSIVE THAN ANOTHER?

All Sunbrella® fabrics are woven from 100% solution-dyed acrylic, which means every option, whether solid, stripe, or textured, offers the same outstanding durability, fade resistance, and easy care.

The difference in price between fabric grades is not a reflection of quality but rather the result of factors such as fabric width, design complexity, weave, or special finishes. For example, a wide-width textured fabric may cost more than a simple solid, even though both provide the same long-lasting performance.

No matter which Sunbrella fabric you select, you can be confident your cushions are made with the highest industry standard for outdoor use.
